

# Loanhead Primary School

## P6 Class Newsletter

Mrs Roy

Term 1 - September 2026

### Literacy

We have been learning to:

- Write a recount of an event.
- Use non-fiction texts to find out information.
- Answer questions using a text.

Next, we will be learning to:

- Develop our vocabulary through topic work.

### Numeracy

We have been learning to:

- Partition 5, 6 and 7-digit numbers.
- Use place value to understand the number system.
- Name triangles and other 3D shapes.

Next, we will be learning to:

- Add and subtract 5, 6 and 7-digit numbers.

### Learning Across the Curriculum

We have been learning to:

- Honour our rights and the rights of others by creating a class charter.
- Research natural disasters.

Next, we will be learning to:

- Find out more about how natural disasters are caused and their impact.
- Create art using our ideas, and our research, of natural disasters.

P6 have settled into class well with lots of new friendships formed. They have taken on various jobs and responsibilities now they are in the upper school.

We have explored non-fiction texts about our topic, natural disasters. We will be exploring a few natural disasters in detail, combining art, science, literacy and numeracy.

What a great start to the session!

As part of our topic work, we created structures using K'nex. We then put our buildings on gym mats and shook them, creating an earthquake effect. The buildings were well made and did not break. Super team work P6!
