

Skill - to decode (work out) how to read a word by looking for little words inside it.

Little Words

REMEMBER

In the challenge task, you can use each letter only once.

In the following passage from 'George's Marvellous Medicine', by Roald Dahl, try to find 5 different words that have a small word inside them. Write the words and the little words below.

George had absolutely no doubts *whatsoever* about how he was going to make his famous medicine. He wasn't going to fool about wondering whether to put in a little bit of this or a little bit of that. Quite simply he was going to put in everything he could find. There would be no messing about, no hesitating, no wondering whether a particular thing would knock the girl sideways or not. The rule would be this: whatever he saw, if it was runny or powdery or gooey, in it went.
