

## Go cloud spotting

---

**A tractor? A horse? A familiar face? Clouds make all sorts of cool shapes. What can you see?**

Head outside, lie down and look at the clouds. What shapes can you see?

Are there any that look like something else? Can you count all the clouds in the sky?

Older kids can learn about different cloud types, too.

**Perfect for busy days, or relaxing holidays Please share your cool looking clouds with us #wildtime**
