

Simple birdseed feeder
Make this feeder for the birds in your garden.

Simple birdseed feeder

You will need:

- Cardboard loo roll inners
- A jar of peanut butter
- A bag of fresh bird seed

1. Tip some birdseed onto a plate.
2. Cover the outside of your loo roll tube with peanut butter.
3. Roll your sticky tube in the seeds until it's all covered.
4. Now slip your tube over the branch of a tree or bush in your garden, or thread some string through the tube and hang it up.

Don't spread the peanut butter too thick or all your seeds will fall off!

Remember to leave fresh water out for birds too.

Feel free to copy and share this for personal and educational use – and don't forget there are loads more brilliant activities to download on our website!
