

# Darvel Primary School

## P2 Class Newsletter

Mrs Morrison/Mrs Hamilton

### December

Primary 2 have been working very hard to learn their lines and parts they are playing in our Nativity. Well done!!

The children have also been enjoying taking part in the Massage in Schools sessions and have learned 14 new massage movements.

Finally, thank you to everyone who helped to create tags to sell at the Christmas Fayre.

#### Literacy

After learning how to create our own Comic Strips we have begun learning how to create non-fiction texts. Last week we received a very special letter from Santa, who was looking to recruit more elves! So we learned how to write about ourselves to fill out the job applications!

We each picked the elf job that would best suit us and explained why. Next we will be learning how to write letters!

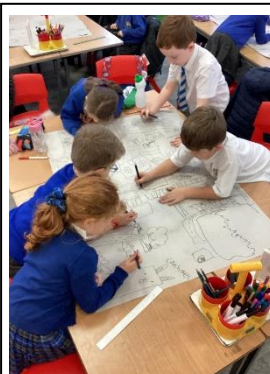

#### Learning across the Curriculum

We are continuing to explore our Houses and Homes and have recently created town maps, looked at different styles of houses and homes, as well as how houses are built.

Next we will be using the architect drawings we have made to build our own houses!

#### Numeracy

Over this term we have been learning new strategies to help us in our counting, including, Bridging, Number Lines, Odd and Even, Doubles and Halves and will soon be learning about Partitioning. We have also now finished our Fractions learning and have now moved on to exploring Time, as well as continuing with Word Problems.

Creating our town maps!

Christmas Fayre tag making
