- Outdoor learning - maintaining grounds

Next we will be learning

- All about animals in the oceans
- Emotion behaviours

General update from teacher

Hello everyone! We have had a very busy first month in Primary3/4. The boys and girls have chosen our new topic of the Deep Sea. We have been enjoying it and learning lots of new things about it across the curriculum. We have also started an investigation station on a Friday where one pupil per week can choose what the class learn about so far we have had flags and this week is deadly animals!
