

In Modern Languages it's all about the 5 "Rs"

RECAP REVISE READ (W)RITE RELAX

1 Recap

Look over work completed in class each day. **Remember** to keep booklets for revision. Ask your teacher if there is anything you don't understand.

Retrieving information **regularly** is a great way to help you to **REMEMBER**.

2 Revise

Learn vocab **REGULARLY** by using games on **Quizlet** – you can make your own or use links set by your teacher. **Duolingo** is also great. **Flashcards** are also a good way to learn key words.

3 Read out loud

Reading out loud is the best way to prepare speaking. Make cards with questions on one side and answers the other then practise **reading** these out loud. Talk to yourself, family or friends to improve. **Repeating** the same material over and over until it sticks is ideal.

4 (W)rite

Redraft material until you are happy with it. Find ways of learning the writing - chunk the task and learn a bullet point at a time – focus on the basics and as you get more confident add in extra detail. **Remember** - **Look, say, cover, write, check**.

5 Relax

Relax and **reboot** after all your studying by listening to music on youtube or watching programmes in your chosen language on Netflix. Or just get some fresh air! Make sure you **rest** and get plenty sleep.

To get it **really right** before you even start **remove** your phone. However you should ask your teacher to record your oral material on your phone so you can listen to it over and over again and work on pronunciation.

TIP!

Refrain from using Google translate there is no "googling" in the exam! Use a bilingual dictionary.
