

CHEMISTRY

GRANGE ACADEMY SCIENCE DEPARTMENT

Study Techniques

What do you need to know?

Chemistry is split into three units. You will be assessed on your understanding, how you apply your knowledge, practical skills and your data handling skills.

Understanding

Chemistry requires you to understand the process of equations and calculations so you can apply them to any scenario. It's important that you review all information and then practice questions as much as possible to help you identify the areas you need to develop.

Study Cards

Study cards are useful to learn key chemical terms and explanations of common concepts. Pre-cut card and rings can be supplied in the department whenever you need them.

Past Paper Questions

All past paper questions can be found using the hyperlinks on SharePoint or by searching the SQA website. This will allow you to focus on one key area at a time. Past paper questions are the best way to practice applying your knowledge.

Resources

All resources for Chemistry can be found on SharePoint. This includes PowerPoint lessons that you'll see in class, summary notes, home learning exercises and practice questions.

Online Resources

Websites such as Bitesize, Evans2Chem, Understanding Standards, Quizlet and SQA are all hyperlinked on SharePoint. You will need to log in using your Glow account details.

Supported Study

Day	Time	Room	Level
Mon	08.00 -8.35	S008	Adv H
Tue	08.00 -8.35	S014	N5
Tue	15.35 –16.30	S027	N5
Wed	08.00 -8.35	S014	Higher

Study Café is available on Thursdays, in the library, 15.35 -16.35, to study any subject.

Speak to a Teacher

You do not need to wait for supported study to ask for help. Speak to **any** subject teacher if you need help or support with Chemistry.
