THE SENIOR PHASE – S4

There are a wide range of different qualification types available throughout S4

- National Qualifications (N5 up to Advanced Higher)
- SCQF Level Awards (L5, L6 and L7)
- NPAs – National Progression Awards (internally assessed)
- SfW – Skills for Work Courses (internally assessed)

In Grange Academy we offer a 'free choice' model, where pupils select subjects without the restriction of options columns.

In total, pupils in S4 will study **seven** subjects plus PSE and Supporting Attainment/Core PE periods. In S5, pupils study five subjects and in S6, pupils can study up to and including **five** subjects.

For pupils involved in the **SFA Performance School** – two columns will be blocked off to enable you to access the requirements of the Performance School. In addition to Maths and English you will study **three** additional subjects.

For **Hearing Impaired** pupils – one column can be allocated for you to work with staff in the Hearing Impairment Department. In addition to Maths and English you could study **four** additional subjects plus time with the HI Department.

EXAMPLE LEARNER PATHWAYS

- A) Some pupils will complete seven National 5 courses (English and Maths plus 5 others)
- B) Some pupils will take a combination of National 3, National 4 and National 5 courses
- C) Some pupils will go study 6 subjects in school and attend College on a Tuesday/Thursday afternoon as part of the School College Partnership
- D) SFA Performance School pupils will study 5 subjects (English and Maths plus 3 others)
- E) Hearing Impaired pupils may choose to study 6 subjects plus have dedicated time with the HI Department.

GRANGE ACADEMY S4

Will I definitely get to study my first-choice subjects?

We always aim to ensure that all pupils get to study their preferred subjects in S4. However, sometimes courses do not run because of low uptake or due to timetabling constraints. Unfortunately, we do not have an infinite amount of teaching time available and cannot always guarantee that a course will run.

Generally, a course needs at least ten pupils to run. If a course is oversubscribed, we may also have to look at your intended career path before coming to a decision about whether or not we should allocate a space to you.

MAKING YOUR CHOICES

- Consider your own skills and talents
- Rely on the support of your family – discuss your choices with them
- Do not base choices on the choices of your friends – these are your choices
- Use My World of Work and the Options Information Booklet to help inform your choice.

MAKING CHOICES

There are several factors to consider when selecting subjects:

You should not select a subject that you did not study in S3 (unless it is a subject, such as Health Sector or Travel and Tourism, which is appearing for the first time in S4)

Only in exceptional circumstances should you select to study three subjects within a curricular area (Sciences, Social Subjects etc). At this stage it is important not to narrow your curriculum too much – in these situations we would discuss them on a case by case basis.

SCHOOL COLLEGE COURSES

- All young people wishing to attend college must complete an online application form in order to secure a place on a programme of study.
- School staff will provide support and guidance in relation to the application process.
- You may be invited for interview and Ayrshire College will decide who is accepted on to each course.
- Should your application be rejected, you will need to select an additional subject to study in school.

If you are interested in applying to a School College course please let your Guidance Teacher know by sending them a message TODAY!

REGIONAL LABOUR MARKET INTELLIGENCE

Skills Development Scotland (SDS) release data every year which identifies trends in the 'labour market'. This means that they look at employment opportunities in a geographical area and provide advice about where there may be opportunities for work. This intelligence is a critical part of the decision making process when you begin to think about your future.

SOME FREQUENT QUESTIONS

Why only take three of the same curricular area in exceptional circumstances?

At this stage, in S4, we are keen that pupils do not narrow their subject choice too much. In Science, for example, very few University level courses state the need for three Sciences as an entry requirement.

Do I need to take ... ?

In S4, the only mandatory qualification subjects are English and Maths. In addition all pupils will receive PSE and Core PE (unless studying PE as a National Qualification).

Where can I find out about ... ?

Please see the next two pages for the variety of resource we have created to support this process.

Can they change their mind?

Yes! We understand that pupils will sometimes make a wrong choice. We will always aim to support a young person to find the right pathway. If, once they have submitted their option form, you would like to make an amendment – please contact the school office in the first instance.

If a request to change subject happens after the start of the course – this might not always be able to be met. We would need to explore whether there is any space in the requested subject and we would need to consider how much of the course has been missed.
