$\qquad$

## One litre

Decide whether each container in real-life holds more or less than one litre. Tick your answer.
I.

$\sqrt{\Omega}$ more than one litre
$\square$ less than one litre
3.

$\square$
more than one litre
$\square$ less than one litre
5.

$\square$ more than one litre $\square$ less than one litre
2.

$\square$ more than one litre less than one litre
4.
$\square$

more than one litre
less than one litre
6.

$\square$ more than one litre
less than one litre
7. Think of something that holds more than 10 litres. What is it?
8. Think of something that holds less than $\frac{1}{2}$ litre. What is it?
