ANDERSON SHELTER HOMEWORK COMPETITION

Primary 7 and Primary 6 pupils have an amazing homework challenge. Can you build a replica of a World War 2 Air Raid Shelter?

You have five weeks to complete this with all entries due in on the week of the 18th March. Families are allowed and encouraged to help and prizes will be given for the winners in two categories:

Best P6/P7 entry

Best use of recyclable materials

Research what Anderson Shelters looked like as well as the surrounding garden. Can you find a way to show inside the shelter? Bonus points for realism and detail.

It is recommended to use recyclable material rather than spending money on modelling kit. Design your model, identify items which you can use, then build it.

Any questions, please contact the school,

Many thanks,,

Mr. Duncan.
