Number Talk Strategy - Friendly Numbers

21 + 13 in our heads can be quite tricky.

20 + 14 is much easier (20 + 10 + 4). Remember what we have been practicing in class to answer these—try to do them mentally:

1)   11 + 16 =   2) 19 + 7 =

3)   41 + 13 =   4) 49 + 11 =

5)   62 + 23 =   6) 16 + 31 =

7)   64 + 21 =   8) 31 + 44 =

Remember - if you need to make an adjustment to get your number 'friendly', you have to make an adjustment to the other number also.
