

Primary 4/5 Newsletter

Welcome to the final newsletter of this academic session. This term we will be building on the excellent progress and learning that occurred in Term 3. Pupil Progress Evenings will be with us shortly and I look forward to showing you the effort and progress your child had made. In this term we celebrate the year we have had, showcase the range of talent we have in The Masked Performer and say our farewells to those who will be leaving us. We have a whole school trip and House Treats also, so another fun packed term ahead!

This term we will look at the Ted Hughes classic The Iron Man. We will continue to write daily and I look forward to sharing their writing progress with you. Please ensure your child is reading regularly outside school.

We begin the term where we left off, exploring time before we move into money and consolidating our strategies for addition and subtraction. Measuring weight, length and volume will then be explored before we dive into data handling and expressions.

Term 4 will see us resume recorder practice and focus on 3D art!

In Health and Wellbeing our focus will be the different needs our bodies have as we grow. We will also be looking at the role medicine plays in our lives and how misuse of certain substances can be harmful.

In PE we are looking at striking and fielding and will be exploring the games of Danish longball, rounders and Kwik Cricket. Please ensure a change of clothes is brought for these lessons. PE is on a **Wednesday** and a **Friday**.

Each pupil will have weekly homework issued using our digital platforms, both available on the school blog. All pupils should be able to access these sites from home as well as Sumdog and Giglets which will also have weekly tasks and challenges. Each child has their own set of log ins, copies of which can be provided. All homework is to be completed in their homework jotters. If there are any problems, please contact the school office. A reusable water bottle is also encouraged and please ensure that only water is brought in. Many thanks.
