# Welcome to our Classroom

...where Learning is Magical!

JANUARY 2026

## Welcome Back!

Although Primary P6 worked harder than ever in Term 2, they are determined to do even better this term. They have only been back a short while, but already they have got so much done!

### Class Topics

We will be finishing 'Natural Disasters' shortly and have already chosen 'Europe' as our new class topic and can't wait to learn more about this in preparation for the East Ayrshire Euro Quiz.

We will also be learning about some of Scotland's Notable Figures as part of a mini topic, as well as

rehearsing 'Flower of Scotland' in preparation for the Scottish Assembly.

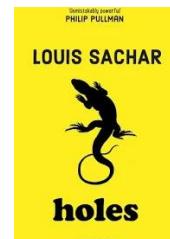

### Curriculum

Within Maths, we are finishing our topics of 'Number Processes' and 'Measure' and will be quickly moving on to 'Fractions, Decimals and Percentages' as well as 'Angles and Symmetry'.

We have sadly finished our class novel 'Divided City' by Theresa Breslin; however, we are looking forward to exploring this further on our Class Excursion to Glasgow on Monday 16<sup>th</sup> February.

In the meantime, we will be starting a new class novel called 'Holes' by Louis Sachar and will finish this off by comparing it to the film.

In gym, we will be continuing to develop possession games, whilst

introducing racquet sports. Our gym days remain a Tuesday, Thursday and Friday, so children should continue to bring a change of clothing and footwear on these days.

### Game Changers

We are fortunate enough to be having Killie Community running a new program withing our school over the term. As part of this P6 will have two workshop and two football sessions, before a whole school event will take place just before the Spring holidays.

Please ask your child about their learning and if there is anything you are unsure of please do not hesitate to ask.
