

💧 Fun Friday Challenge 05/02/2021 💧

Natalie and Louise C has set this week's Friday challenge to explore objects that float or sink.

What you will need:

- A basin or big bowl and fill this with water (an adult will need to help with this).
- Can you find different objects and place them in the water? Watch to find out if they float or sink to the bottom. Objects that can be used are stones, sticks, a toy car, a small ball, feather etc.
- To make it trickier why not predict if the object will sink or float before putting the objects in the water.

Learning:

I have explored objects that float or sink - SCN 07a.

We look forward to hearing how you got on. Any photographs or feedback on the challenge can be sent to:

louise.clark1@eastayrshire.org.uk
