

Primary 1 Homework

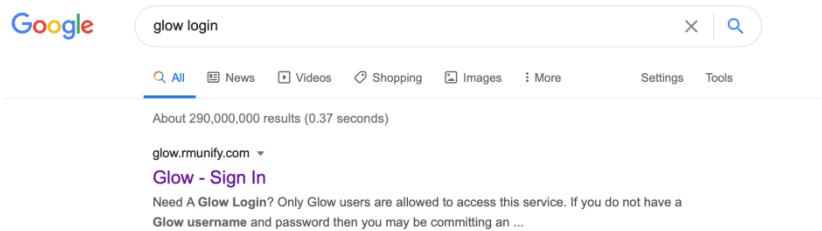

After the October holidays, we will be issuing homework. This homework will be issued electronically and can be accessed through Microsoft Teams. To ensure that everybody can access our class Team ahead of the homework being issued, we thought it would be helpful to issue all passwords/usernames now.

Microsoft Teams can be accessed in 2 ways.

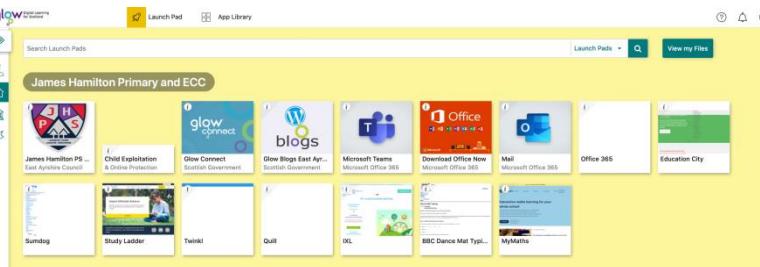

1. Via GLOW.
2. Microsoft Teams app - available for mobile and tablet devices. This can be downloaded for free from your appropriate App store.

GLOW Access

- Search GLOW login via Google

- Click on the link pictured above.
- Sign in to GLOW using your child's log in details (on card provided).

- Click on the Microsoft Teams tile as pictured above.
- If you are asked for a username/email and password then enter your child's GLOW email (gw...@glow.sch.uk) and their GLOW password.

Microsoft Teams App

- Download the Microsoft Teams App from your appropriate App store.
- Once downloaded you will be asked for a username/email and password. The username/email is your child's GLOW email (gw...@glow.sch.uk) and the password is your child's GLOW password.

When you have accessed our class Team, please leave a message on the main page to let us know that you have been able to visit this page. This is where homework will be uploaded in the coming weeks.

A Guide to Using Glow can also be accessed using the following link: <https://blogs.glowscotland.org.uk/ea/glowguide/> This will provide more help and advice to using GLOW and Teams.

If you have any problems accessing GLOW or Teams, please contact the school.

Many thanks.
