

# How to make a pooter

wildlife  
watch

## What you need:

- plasticine

- jar with lid

- 40cm of clear, flexible plastic tubing, 7-10mm wide (try a big DIY store)

- a small piece of gauze, net curtains or tights

- elastic band

- green and red stickers or tape

[www.wildlifewatch.org.uk](http://www.wildlifewatch.org.uk)

- 1 Make 2 holes in the lid (ask an adult to help with this)

- 4 Mark the longer tube with a red sticker/tape (red means 'don't suck this tube').

- 5 Put some plasticine around the tube holes to make them airtight.

Now you're ready to pooter!

- 3 Put the gauze over the end of the shorter tube and mark the other end with a green sticker/tape.
