# Make your own binoculars

You will need

- Two cardboard tubes (you can use toilet roll tubes)
- String
- Paper
- Scissors
- Glue
- Rubber band
- Hole puncher or pen
- Felt tip pens (optional)

1. Cut your paper to size, then cover your tubes with glue and wrap the paper around them.

glue

2. Using a pen or hole puncher, insert a hole at the side of each tube, about a third of the way down.

3. Glue the two tubes together so that the holes are facing the outside.

4. Insert string into one of the holes from the outside of the tube. Bring it through the tube and tie a chunky knot. Gently pull the string back from the outside. Repeat on the other side.
The knot will stop the string coming back through the hole.

5. Place a rubber band around the tubes to help the glue set. Leave to dry over night.

6. Remove the elastic band and then decorate them with pens!

7. Go wildlife detecting!
