How to make a bird hide

What you need:

- old sheet or blanket (dark ones are best)
- one long and two short branches or poles
- string
- clothes pegs
- cushions
- warm clothes
- snacks
- bird feeders and food
- binoculars (optional)

1. Lash the three poles together to make a low frame

2. Cut a small viewing flap and peg it up out of the way

Wear warm clothes, watch and wait...

Tall enough to sit inside

3. Cover with a blanket and peg in place

4. Stock your hide with comfy cushions, a drink and snacks
