

The following resource list provides ideas and options for increasing capacity to deliver learning outdoors in school/ELC grounds. It covers the basic considerations:

**clothing, shelter, handwashing and toilets.**

There is also a section for basic equipment for **going off-site**, and a list of additional resources to consider.

**NB:** There are other suppliers for many of the items listed – the links are mainly to companies on PECOS or have been assessed as best value for a specific product. Please think about purchases that support the Scottish Economy and are sustainable in terms of transportation and materials used. Thanks to Falkirk Outdoor Team for their work on compiling this.

**Clothing**
