

QR TRAIL

INSTRUCTION SHEET

You will need:

- Internet connection on a mobile or tablet
- QR code reader

Siting QR codes:

Take pupils outdoors and ask them to help you place the QR codes, they can be attached permanently or temporarily if interference expected.

Resources:

Some additional resources may be required as stated next to each code below, an attempt to encourage minimal preparation for the outdoor engagement sessions has been made:

Mapping

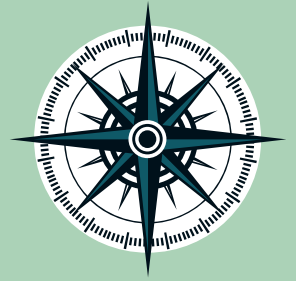

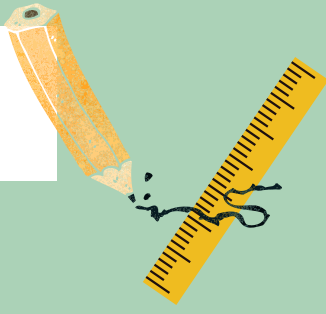

- Use the attached basic map to mark where each code is placed.
- The map can be a lesson all by itself.
- Ask your school janitor or use the link below for orienteering maps
