Red Group Tasks- oi phoneme

The class was doing a garden topic. Each child was given a choice of seeds to plant in a pot. The children put soil into their pots, pressed the seeds well down and then watered them to help them grow.

The children took their pots outside into the school garden. Every day they looked after the plants and enjoyed watching them grow. But something happened which annoyed them.

One day they went to the plant pots only to find they had fallen over and the tops of the plants had been destroyed.

'Look at our plants!' a voice shouted. 'They have been destroyed', said another pointing to the plants.

The children were upset and thought some boys had destroyed them. As it turned out, rabbits had been seen running around during the night. It did look like the plants had been eaten by the rabbits. Well, rabbits need to eat but they will not be able to destroy any more plants because the children agreed to grow the plants inside.

Oi phoneme Story

1. Read the oi phoneme story
2. List all the oi words you find in the story

For example...
