

Calendar and Longer Time Intervals

You should know that there are **365** days in a year *.

This rhyme should help you to remember the number of days in each month.

* Leap years have 366.
They occur every 4 years.

30 days has September, April,
June and November.
All the rest have 31, excepting
February which has 28 days clear
and 29 in each leap year.

Be able to
interpret and
use a calendar
