

Why Does Lightning Flash?

Session 4 (End of Book Tasks)

Task 1

- Read Michael Faraday's letter on p10.
- Imagine you are Humph and write a reply to his letter.
 - What would you say to him?
 - Remember no one has ever created a steady flow of electricity before. How do you feel about the first steady flow of electricity?
- Use the PCM template to help.

Task 2

- Re-read the newspaper article on page 13.
- Imagine you were there that day and write a diary entry describing the event.
 - How did it feel when the generators groaned and the sparks flew?
 - Did you think it was going to work?
 - What happened when the lights went on?
 - How did you feel?
 - What was everyone's reaction?

Task 3

- Complete the book review sheet about "Why Does Lightning Flash?"
- Use the template provided to help.
