# How to Access Nessy at home Written Guide

***Nessy Reading and Spelling*** is a reading software programme that allows children to enhance their reading and spelling skills. Every child that is using the Nessy programme is working on their own individual targets and will be given time in school to play the games.

We are pleased to share that Nessy can be used at home if your child has access to a computer or tablet. The programme will only work through Google Chrome, Safari or Firefox browsers.

Just follow the instructions below:

- 1) Visit the Nessy website at <http://play.nessy.com/login/>
- 2) Enter the "Secret Word" that students use at school each time they log in. At Mauchline PS & ECC the word is 'relievedarch' (no spaces between the two words).
- 3) Once your child has logged in they should select the arrow beside 'My Targets' (next to the monkey) and play one or more of the selected games.
- 4) Have fun and develop reading and spelling skills at the same time!
