

Heritage Heroes Homework

This term we are going to be taking part in the Heritage Heroes Award program. This program encourages children to look at where they live and explore an area of historical interest. We are very lucky as New Cumnock is steeped in history. We have decided to learn about the history of the swimming pool.

Over the next week or two I would like you to discuss with your family your family's history. If you want, you could prepare a short presentation for the class about something you have learned.

Black and white version below.
