

We have been learning about our Rights in relation to the UNCRC.

This week we are thinking about Article 3: Best interests of the child.

All Adults should do what's best for you. When adults make decisions, they should think about how these decisions will affect children.

We are beginning to think about who our trusted adults are, these are the adults that help look after us and make decisions about us. These might include our parents, other family members, teachers or other adults in school, sports coaches, club leaders and for some children social workers and health care workers might also be trusted adults in their life.

Design a poster illustrating the meaning of Article 3 for our Display. Your poster should be designed on A4 paper and include words and illustrations showing the meaning of Article 3.

The Rights Respecting School group will choose the posters that will be used for our display and each child who designs a poster and hands it to Mrs McCracken by Thursday 2nd March will receive 100 points for their house!
