

HOMEWORK

Homework will be issued from Monday 30th September.

Homework and family learning tasks compliment the work of the class and can help children develop greater understanding of what they have been learning.

A homework guide will follow, for P1, P2-3 and P4-7 to give you more information about what to expect.

In addition to this we want to promote reading for enjoyment and our Learn it's

Reading for Enjoyment

At all stages in the school and ECC we encourage children to read for enjoyment at home. This can be anything at all! As long as it's reading and children are enjoying it! Remember in the early stages this includes children being read to. Reading a variety of genres will increase a child's vocabulary and also impact positively on their spelling, grammar and general language ability.

Learn Its

Big Maths Beat That Learn Its can also be reinforced by all children across the school these will be issued by the class teacher via Learner Journal. It is very important children know these maths facts by quick mental recall. They are also covered in class and assessed weekly.

We never want homework to cause unnecessary stress or fall outs at home. If you are finding this is happening please let us know.
