

NEWMILNS PS

IMPROVEMENT PLAN

26/27

Working together to make our school even better!

OUR LEADERSHIP

Children Leading the Way!

- ★ Pupils will have regular opportunities to lead learning, share their views and help improve the school through groups such as Newmilns Teams, Together Time and pupil-led improvement activities, with support from staff across all classes, including the ASN class.
- ★ Families will be invited to take part in learning showcases and events.
- ★ Staff will continue to develop their leadership skills and use national guidance to strengthen pupil voice and participation across the school.

TEACHING AND LEARNING TOGETHER

Great Learning Every Day!

- ★ We will continue to improve learning and teaching across the school through consistent use of our approaches, including the Excellent Learning and Teaching Experience, Learning Intentions and Success Criteria, digital technology, outdoor learning and interdisciplinary learning, so that children understand how they learn and develop key skills across the curriculum.
- ★ Children will take part in regular, high-quality learning experiences across a range of contexts. Staff will continue to work together to share effective practice and ensure learning is engaging, consistent and well supported for all learners, including those in our ASN/ECC settings.

OUR WELLBEING AND BELONGING

Everyone Matters!

- ★ We will strengthen wellbeing, inclusion and relationships across the school by supporting children to understand and manage emotions, using programmes such as Emotion Works and GMWP, and involving pupils and families in shaping key policies and approaches to ensure everyone feels safe, respected and included.
- ★ We will continue to improve attendance and inclusion by developing supportive classrooms, environments and learning spaces, enhancing support for children with additional needs, and working closely with families every partner to ensure every child is able to engage fully in school life.

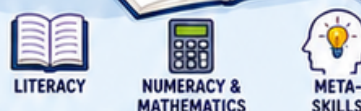

OUR ATTAINMENT, DESTINATIONS AND ACHIEVEMENTS

Reaching Our Full Potential!

- ★ We will improve learning in numeracy, literacy and meta-skills by strengthening teaching approaches across all classes, using assessment information to support progress, and providing targeted small group support to help children close gaps and build confidence in key skills.
- ★ Children will be supported to understand and use key learning strategies such as 'outer maths' and meta-skills, with clear progression across the school, including in our ASN class, to help every child make the best possible progress.

OUR SCHOOL VISION FOR 2026-27

LEAD

We have a voice and lead positive change.

LEARN

We love learning and develop important skills.

BELONG

We feel safe, respected and.

ACHIEVE

We achieve our best and celebrate success.

★ Believe and Achieve, Raise the Bar and Be the We Can Be! ★
