

+ and – hundredths

Glenearn School is planning a trip. The school uses a Credit Union to manage the money needed for the trip.

The Credit Union keeps the payments paid in, and the school takes money out when needed.

Fill in the table to show the running balance as money is paid in and taken out of the account.

Transaction	Paid in +	Paid out –	Running balance
Opening balance			£894.23
Kate	£24.25	-	£918.48
Sam	£56.30	-	
SeaLife Centre	-	£315.00	
Paul	£19.81	-	
Bus deposit	-	£500.00	
Sid	£42.50	-	
Aria	£26.45	-	
Parent Council	£400.00	-	
Hotel deposit	-	£340.90	
John	£20.75		

The Leisure Centre needs a £350 payment. There is currently not enough money in the account to pay this.

How much more needs to be added to the account so that the payment to the Leisure Centre can be made? Show how you worked this out in the space below.

I can do additions and subtractions involving numbers with two decimal places
