

+ and – millions to hundredths

Some of the calculations below have been answered incorrectly.

Check each calculation and mark the correct answers with a ✓.

If they are incorrect, work out the correct answer and write it beside the calculation.

You can use materials, visuals or drawings to help with your calculations.

1. $4362.09 + 16.14 = 4378.23$

2. $13952.4 - 10323.2 = 3629$

3. $34.24 + 154.05 = 188.25$

4. $932578.9 - 117892.3 = 814686.5$

5. $142.39 + 7090.4 = 7232.43$

I can do additions and subtractions involving numbers with two decimal places
