

Lucy mouse lives in a lovely little house in County Louth. Every morning she walks outside and looks at the beautiful mountains behind her house. That is her favourite thing to do. She also looks up at the sky to see if it is a cloudy day. Lucy likes to count the clouds out loud but she never shouts.

Lucy loves to eat cheese too. One day she took a big piece of cheese out of the fridge. She went out for a walk and dropped the cheese on the ground. She lost it!!! Lucy walked around until she found it again. She was very proud that she had found it. She popped it into her mouth and it was very sweet and tasty.
