

WE'RE THREE KINGS

Kings

1. We're three kings, don't you know how important we are?
We have come from afar, we must follow the star!
Three kings, we have studied the skies for a while,
We have travelled for miles to discover the child.

All

CHORUS *'Cause it's an ancient prophecy,
Tonight it will come true.
A baby born to save us all,
So please, please, let us through!*

Camels

2. They're three kings with their camels in tow,
With a great heavy load,
And their frankincense, myrrh and their gold.
Three kings who have watched for a sign
For a very long time,
So let's go, or they'll just start to whine!

CHORUS

Kings

3. We're three kings, don't you know how important we are?
We have come from afar, we must follow the star!
Three kings, we have studied the skies for a while,
We have travelled for miles to discover the child.
(Much slower)
To discover the child.
