

Use the pictures on the table you completed last week.

Think about each material and circle the property you think best describes it.

Use a dictionary to look up any adjectives you are unsure of!

Wood is opaque / transparent

Glass is smooth / rough

Stone is flexible / rigid

Cork is buoyant / non-buoyant

Metal is magnetic / non-magnetic

Rubber is stretchy / rigid

Fabric is hard / soft

Paper is waterproof / absorbent

Plastic is tough / brittle

Leather is absorbent / not absorbent

Can you think of any other materials? Write them below and think of an adjective to describe them.

..... is .....
