

# Financial help in the early years

January 2021

---

Child Poverty Action Group works on behalf of the one in four children in Scotland growing up in poverty. It doesn't have to be like this. We use our understanding of what causes poverty and the impact it has on children's lives to campaign for policies that will prevent and solve poverty – for good.

We provide training, advice and information to make sure hard-up families get the financial support they need.

## Introduction

This leaflet outlines what financial help may be available from pregnancy to school age. It includes how universal credit (UC) can help you qualify for certain types of help, and other assistance that is available as well as universal credit.

UC replaces child tax credit, working tax credit, income support, income-based jobseeker's allowance, income-related employment and support allowance and housing benefit for most people. If you are still getting one of these benefits you may also qualify for the financial help described in this leaflet. If you are already entitled to child tax credit (CTC) or working tax credit (WTC) you can continue to get them and renew your claim – if you get one you can start to get the other tax credit.

If you are not already getting UC, becoming responsible for a child for the first time usually means that you have to make a new claim for UC.

If you are unsure if you need to claim UC seek advice before you make a claim.

The information in this leaflet is not a full statement of the law, and individuals should be referred for specialist advice where appropriate.

### EARLY WARNING SYSTEM

The Early Warning System (EWS) was developed by CPAG in Scotland to collect and analyse case studies about how changes to the benefit system are affecting the wellbeing of children, their families and the communities and services that support them. The case studies are helping us develop an in-depth understanding of the impact of changes to the benefit system and to identify how policies and services in Scotland can continue to contribute to the delivery of better outcomes for children.

Find out more about EWS at: [www.cpag.org.uk/scotland/early-warning-system](http://www.cpag.org.uk/scotland/early-warning-system)
