# East Ayrshire Council Education Service

Establishment: Patna Primary School, Supported Learning Centre & Early Childhood Centre

Establishment Improvement Plan 2025-26

School Improvement Plan	Patna Primary School, Supported Learning Centre & Early Childhood Centre
Head Teacher	Claire McPhail
Date Submitted	Submitted to Chief Education Officer on : 26 <sup>th</sup> June 2025

		he challenge, reach your potential.	
School / Centre Vision and Values	Our Values:  Respect Inclusion Self-Belief Excellence	Respect Inclusion Self-belief ExcEllence	

#### **Checklist**

In line with the Standards in Scotland's Schools etc. Act 2000 (amended 2016), the following checklist is designed to assist Heads of establishment with whole school/centre improvement planning that fulfils statutory duties in accordance with the Act. This must be completed prior to submission.

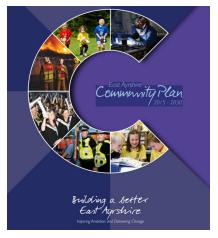

SIP Consultation	Complete							
included the following								
stakeholders:								
Children and Young	$\sqrt{}$							
People								
Parent Council and Forum	V							
Teachers, practitioners and ALL school/centre staff	<b>√</b>							
Volunteers/ Community partners	$\sqrt{}$							
Head Teacher / Head of Centre								
Signature: Claire McPhail	- <del>-</del>							

Content of plan	Complete
Takes account of strategic priorities outlined in the Education Service	$\sqrt{}$
Improvement Plan. <a href="https://www.east-ayrshire.gov.uk/Resources/PDF/E/Education-">https://www.east-ayrshire.gov.uk/Resources/PDF/E/Education-</a>	
Service-Improvement-Plan.pdf	
HGIOS 4 and EYQF are used as the frameworks to inform the content of SIPs.	$\sqrt{}$
Where appropriate.

will be provided to parents, children and young people.	

### Pupil and parental strategic involvement

For session 2025-26, please describe below how children and young people will be involved in decisions relating to the operation of the	For session 2025-26, please describe below how parents will be involved in decisions relating to the operation of the school/centre				
school/centre					
House Captains Monday Meet Ups and Evaluation of Pupil Friendly Improvement Plan. HT will meet House Captains and explore key questions and related activities. House Captains to gather views from all pupils through Houses at Assembly once a month. House Captains focus on Cost of the School Day.	ASN – consultation with parent/carer ASN group & feedback from parent/carer NEST sessions.  Learning Journals will continue to be used to share current pedagogy/learning targets and to promote parent/carer engagement.				
Pupil Leadership Groups – All children are members of a group which meet every fortnight to share ideas and to work on their action plans.	Parent/carer feedback section on school report.				
Weekly whole school assemblies – pupil choice and sharing views/progress from pupil	Parents/carers invited into the school termly with opportunity to feedback on the engagement event using GLOW forms.				
leadership groups. ECC pre school children to attend once per month.  HMIE Pupil Questionnaire, GMWP & Reading Schools Questionnaires.	ECC Stay & Play sessions, Book Bug & PEEP Sessions – Parents/carers involved in choosing themes and when.				
Pupil tracking conversations and traffic light/evaluate lessons against The Excellent Lesson Recipe.	GLOW Forms will be used to issue questionnaires and gather feedback.				
Continue to reflect on Learner Participation Tool to highlight and create further opportunities for decision making	Information will be shared via School App & Parent Council FB Page, as appropriate.  HT to attend Parent Council Meetings.				
ECC Rights Group which includes children & parents/carers	Progress on priorities for improvement shared at Parent Council Meetings and via School App.				
	"You said, We did" will be displayed in school and shared via the School App.				
	Share impact of PEF at Parent Council Meetings and via School App.				
	School Improvement Plan & PEF Consultation – Parent Council & May Parents' night.				

## Community Plan East Ayrshire 2015 - 2030

#### Together, in achieving our Vision, Partners will demonstrate:

#### **Effective leadership**

We will provide clear leadership in Community Planning and engage effectively with our employees and communities **Collective ownership** 

We will take collective ownership for delivering on the Community Plan, the associated Single Outcome Agreement and the Community Plan Delivery Plans, and work hard to improve outcomes for local people and communities **Good governance** 

We will implement clear operating arrangements to support effective strategic direction, scrutiny and accountability **Democratic accountability** 

We will measure and report on the impact of our activities to demonstrate how effectively we are improving outcomes for local people and communities, and all partners will be held to account for their contribution.

Our Partnership will continue to work to meet the needs of the people who live in our communities. Our guiding principles will be reflected in all that we do and should be evident for all to see.

"East Ayrshire is a place with strong, safe and vibrant communities where everyone has a good quality of life and access to opportunities, choices and high quality services which are sustainable, accessible and meet people's needs."

#### We will:

- Promote lifelong learning.
- Promote equality and tackle inequality;
- Adopt a preventative approach;
- Ensure effective community engagement in the planning and delivery of local services;
- Utilise the strengths and resilience within communities;
- Drive efficiency and performance improvement;

#### **National and Local Priorities**

# The Scottish Government's vision for education in Scotland:

- Excellence through raising attainment and improving outcomes
- Achieving equity

## Key priorities of the National Improvement Framework:

- Placing the human rights and needs of every child and young person at the centre of education
- Improvement in children and young people's health and wellbeing
- Closing the attainment gap between the most and least disadvantaged children and young people
- Improvement in skills and sustained, positive school-leaver destinations for all young people
- Improvement in attainment, particularly in literacy and numeracy

# NIF drivers of improvement in the outcomes achieved by children and young people are:

- 1. School and ELC leadership
- 2. Teacher and practitioner professionalism
- 3. Parent/carer involvement and engagement
- 4. Curriculum and assessment
- 5. School and ELC improvement
- 6. Performance information

#### **Scottish Attainment Challenge (SAC)**

Scottish Attainment Challenge: framework for

recovery and accelerating progress

Scottish Attainment Challenge Logic Model -

Tackling the Poverty-Related Attainment Gap – Our Theory of Change

#### **SAC organisers:**

- · Learning and teaching
- Leadership
- Families and communities

	East Ayrshire Plans									
Key Priorities	Education Service Improvement Plan:	Children's Services Plan:	Community Learning and Development Plan:							
1: Our Leadership	We actively support, promote and enact leadership at all levels. Our young people are supported to be leaders on their learning in our centres, schools and wider life experiences. All staff have ready access to appropriate CLPL and experiences to promote leadership in every classroom and centre.	Priorities for 2023-26:  1. Our children and young people feel respected, listened to and influence	Outcomes:     Growth     Wellbeing     Fairness							
2: Teaching and Learning Together	Our young people should experience a teaching, learning and curriculum offer that meets their needs, and those of our local and national context. All staff should be supported to deliver in new and innovative ways by accessing CLPL relevant to their needs and those of our young people.	change 2. We are working collaboratively, reducing	<ul><li>Sustainability</li><li>Action areas</li><li>1. Youth voice and</li></ul>							
3: Our Wellbeing and Belonging	We want all of our young people to feel supported by people who know them well, and feel included in all of our schools and centres. Our staff need to be supported in their working with our young people, especially in times of adversity. As a key universal service, it is our vision that all young people attend our establishments on a full-time and regular basis to support them in their development at all stages.	children and young people 3. Our children and young people feel safe 4. Our children and young people have the best start in life 5. Our children and young	participation  2. Lifelong learning and skills development  3. Empowering communities  4. Wellbeing and inclusion							
4: Our Attainment, Destinations and Achievements	We want the very best for all of our young people in East Ayrshire. We aim to ensure all young people secure a positive destination through excellent achievement and attainment at all levels.	people's mental health is improving								

#### **Our Leadership: Improvement priority:**

Our Learners' needs will be met by an empowered staff team who have engaged in relevant CLPL to deliver a child-centred approach which supports the UNCRC.

#### Rationale

A child-centred approach is fully aligned with and supports the UNCRC. It adapts learning to the child's pace, interests and learning style. Play Pedagogy is an evidence-based approach that supports deep learning and development. It aligns with children's rights and creates engaging, inclusive and meaningful educational experiences. Self-Evaluation activity, at Establishment Level, using The 'Four Arenas of Participation' to understand when, where and how learners can have a say, highlighted gaps in Learning, Teaching and Assessment. A child-centred approach, promoting play and play pedagogy, will give learners an increased voice in decisions on how, what and where they learn. Self Evaluation and Quality Assurance has highlighted that Staff across the establishment have varied knowledge and skills in regards to play pedagogy and the UNCRC. With staffing changes and new staff being recruited, due to increased numbers of children, we require a sustainable model of change. The Play Pedagogy Award, developed by Play Scotland working closely with Education Scotland, offers a structured and supportive way to embed play pedagogy as a whole-establishment approach.

Quality Assurance processes - Observations of classroom /playroom practice, tracking conversations and collegiate self- evaluation activity, pupil and parent voice.	
	PRD/FACEtime targets and review	

#### **Teaching and Learning Together: Improvement priority:**

Our Learners will experience a curriculum which is creative, innovative and inspiring, reflecting the needs of our learners and the Community.

#### Rationale

Project-Based Learning (PBL) is an evidence-based approach, allowing learners to explore curriculum content through real-world contexts and cross curricular connections, leading to deeper understanding and better knowledge retention. It encourages inquiry and curiosity, which increase motivation and engagement. Leuven Scales, classroom observations and GMWP data have highlighted more learners who require support to remain motivated and engaged. This is particularly evident at P3 where learners have experienced a Play Pedagogy approach previously. Pedagogical approaches at Patna should be consistent and progressive. Project Based Learning will build on Play Pedagogy approaches.

Project based approaches naturally integrate the development of crucial competencies which prepare learners for life beyond the classroom and changing workforce needs. Staff and children have explored meta-skills with some staff planning for and tracking meta-skills effectively. A whole School approach to Project-Based Learning will ensure consistency of approaches to meta-skills development.

Project-Based Learning creates space for differentiation and pupil voice, supporting inclusion by valuing diverse strengths and offering multiple ways to demonstrate understanding and success. The needs of our learners are changing, we have an increased number of children presenting as neurodivergent and with communication needs. Late coming/attendance data highlights a gap for learners with ASN and those without.

Adopting a Project-Based Learning approach promotes reflective, collaborative and innovative teaching practice. It fosters a culture of continuous improvement and shared learning among staff.

Increased engagement in learning evidenced using the Leuven scale.  Increased Agency & Autonomy demonstrated in GMWP data.	

|--|

#### Our Wellbeing and Belonging: Improvement priority:

Our Learners, regardless of their background or needs, are fully included.

Rationale – EAC Revised Policy Relationships & Behaviour – a Framework for Practice and local authority inclusion data highlights a need to 1. Reduce low level disruption and engagement in learning. 2 Reduce the frequency and intensity of children presenting as significantly dysregulated when learning. 3. Further improve the inclusion of the groups of children most likely to not be present, participating, supported and achieving. This will likely result in a focus upon, but not exclusively, learners with social, emotional and/or behavioural needs and learners with neurodevelopmental needs, including Autism and ADHD. 4. Increase the emotional and physical safety of all. With the needs of our learners changing we need to ensure universal approaches to inclusion are consistent across the establishment, with targeted approaches impactful, increasing attendance and meaningful participation.

#### **Our Attainment, Destinations and Achievements: Improvement priority:**

Our Learners' attainment in Numeracy will improve with a focus on progressive approaches to vocabulary & further developed assessment approaches.

#### Rationale -

The recent national thematic inspection report: Enhancing the quality of mathematics education in Scotland provided key messages in relation to what is working well and what needs to improve in the learning and teaching of mathematics in Scotland.

While significant strengths were highlighted, sector specific key areas for improvement were identified within the report. Key statements on what needs to improve included: Some teachers use inaccurate mathematical vocabulary and terminology during lessons and on wall displays, which can hinder children's understanding. It is crucial for teachers and support staff to discuss and develop their own understanding to model mathematics accurately when supporting children. There are highly effective examples of staff developing and planning for a school-wide progressive approach to subject-specific vocabulary. However, this is not yet common practice. Currently, teachers' planning for mathematics focuses heavily on children's knowledge and understanding of concepts, with less consideration given to developing mathematical skills. Teachers make regular use of CfE experiences and outcomes and of the national benchmarks when planning learning and assessment. However, most staff are not yet considering how to support children to demonstrate, link and apply the key 'numeracy and mathematical skills' embedded in the experiences and outcomes and outlined explicitly at the start of the national benchmarks. To better support children to develop these important skills, teachers need to plan how these skills will be practised through learning experiences, questioning and assessments. Through engagement in the SWEIC Sharing Pedagogies to Enhance Mathematical Practice programme, the Doon Education Group Numeracy Leads have highlighted the need to develop precise technical vocabulary relating to mathematical knowledge (conceptual and procedural). Developing mathematical talk through the types of tasks, questioning and interactions we provide is key to supporting the development and, crucially, the understanding of technical mathematical words. Embedding the consistent use of technical vocabulary across CfE levels will assist learners in developing their conceptual and procedural mathematical knowledge and understanding while devel

## Sumary of Improvement Plan directly linking to Education Service Improvement Plan: Patna PS, SLC & ECC

Our Leadership	Teaching and Learning Together
Priority: Our Learners' needs will be met by an empowered staff team who have engaged in relevant CLPL to deliver a child-centred approach which supports the UNCRC. We will: Participate in The Play Pedagogy Award which includes personalised support & mentoring, opportunities to connect and share practice with other settings across Scotland, and resources to support professional learning and reflective dialogue. Outcomes: Increased motivation, engagement and learners leading their learning.	Priority: Our Learners will experience a curriculum which is creative, innovative and inspiring, reflecting the needs of our learners and the Community.  We will: Develop staff understanding and approaches to Project-Based Learning. Introduce and adapt PBL planners which include both knowledge and skills development. Involve parents/carers through curriculum Open Afternoon and the use of Learning Journals.  Outcomes: Improved attendance, increased motivation, engagement and skills development.
Our wellbeing and belonging	Our Attainment, Destinations and Achievements
Priority: Our Learners, regardless of their background or needs, are fully included. We will: Engage in relevant CLPL, review and update our Wellbeing Policy. Further embed actions to support implementation of The Promise. Participate in RRS Gold Award. Use tracking information and assessment to inform planning, learning and teaching and additional supports effectively. Increase opportunities for participation through communication approaches. Outcomes: Improved attendance & engagement, identification and impact of wellbeing supports.	Priority: Our Learners' attainment in Numeracy will improve with a focus on progressive approaches to vocabulary & further developed assessment approaches.  We will: Develop Talk and Vocabulary within Mathematical Learning Experiences. Develop a shared understanding of our assessment model within numeracy and mathematics to inform robust teacher judgements. Provide CLPL for Pupil Support Assistants.  Outcomes: Increase numeracy attainment and confidence of learners in numeracy & maths.
