

P1/2 numeracy FRIDAY

L.I: I can compare number bonds.

1. Can you find the pairs of number bonds?

$$1 + 2$$

$$2 + 3$$

$$4 + 1$$

$$3 + 0$$

2. Can you say if these numbers are less than, equal to, or greater than?

4 is \_\_\_\_\_ 5

7 is \_\_\_\_\_ 6

3 is \_\_\_\_\_ 3

3. Symbols:

An arrow can be used to show whether a number is smaller or bigger than the one it is being compared to. The arrow always points to the smaller number.

$$3 < 10$$

Can you write a number sentence with 4 and 6, using the arrow symbol?

4. Talk to your grownup about what you have learned today. If you have dice play the rolling addition game. You can start with one dice if you feel less confident.
