

P/2 Numeracy MONDAY

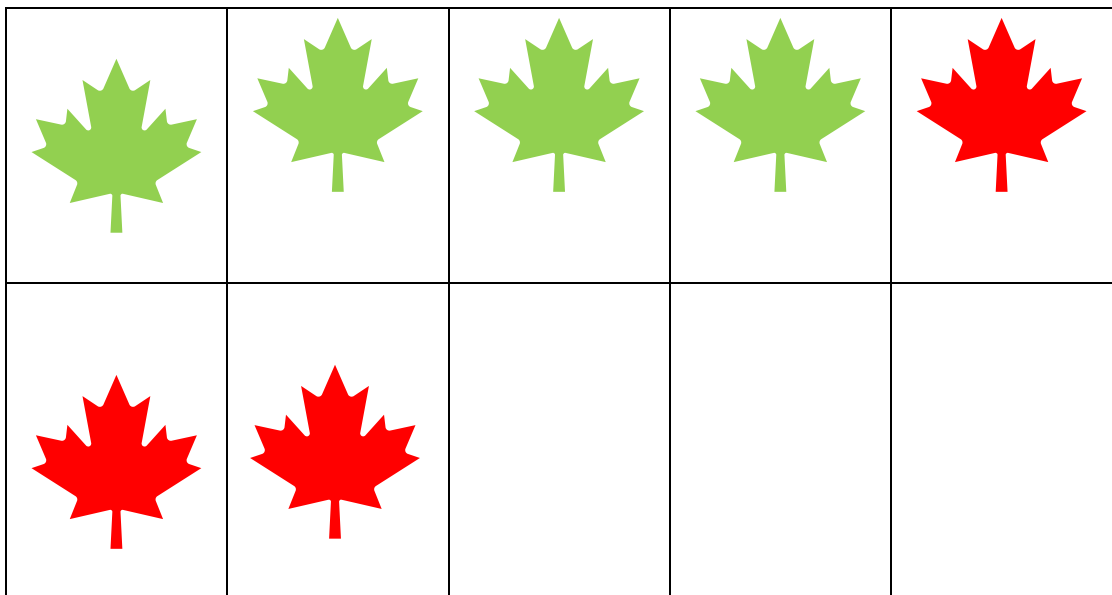

L.I. - I can add 2 parts together.

1. Look at the ten-frame. Can you write a number sentence to show the addition calculation?

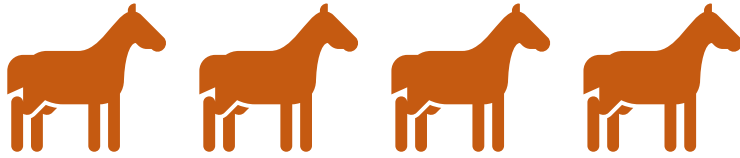

$$\underline{\quad} + \underline{\quad} =$$

2. Can you write a number sentence for this ten-frame?

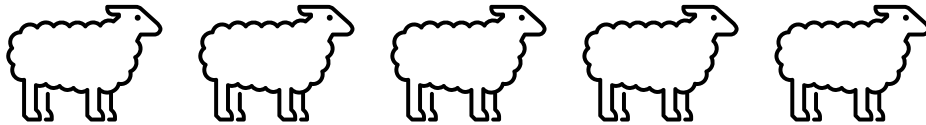

$$\underline{\quad} + \underline{\quad} =$$

3. Can you answer this adding together question? Use the ten-frame to help you.
Old MacDonald has 4 horses.

He also has 5 sheep.

How many animals does Old MacDonald have altogether?

$$\underline{\quad} + \underline{\quad} =$$
