

P1/2 Numeracy FRIDAY

L.I - I can find a part of a whole.

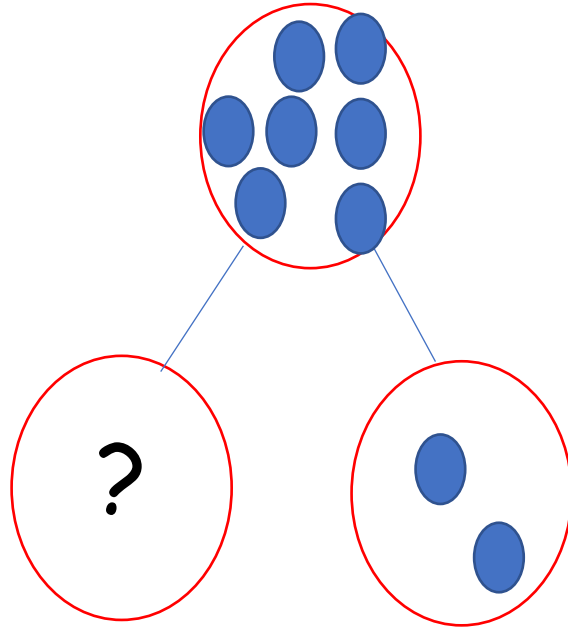

1. Can you use the number line to work out what is missing from this part-whole model?

$$5 + \underline{\quad} = 9$$

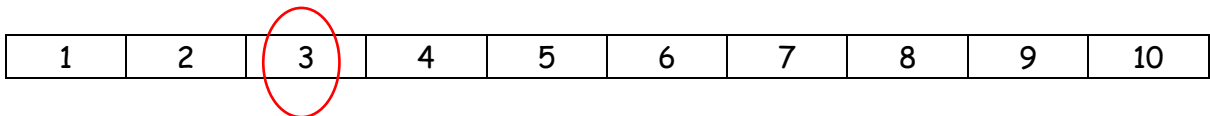

2. Can you use the number line to work out what is missing from this part-whole model?

$$\underline{\quad} + 2 = 7$$

3. Use the number line to figure out this number story.

Sam has 7 balloons.

3 are red.

The rest of the balloons are green.

How many are green?
