

P1/2 Numeracy WEDNESDAY

1. Can you complete the part-whole model and then use it to help you complete the number sentence?

There are 6 insects.

4 insects are blue.

How many are red?

$$6 - 4 = \underline{\quad}$$

2. Here are some buttons. How many buttons are there?

Can you complete the part-whole model to help you work out how many green buttons there are?

$$9 - \underline{\quad} = \underline{\quad}$$

3. Can you complete the number sentences for these tables, count the dots to complete the sums:

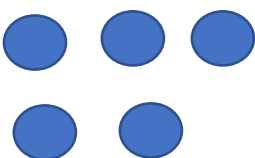

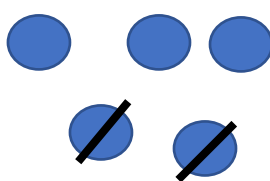

First	Then	Now

$$\underline{\quad} - \underline{\quad} =$$

First	Then	Now
		

$$\underline{\quad} - \underline{\quad} =$$

4. Can you complete the table and then the number sentence?

First	Then	Now
		

$$\underline{\quad} - \underline{\quad} =$$
