

## Temple of doom by Stuart

In a forest as big as the Amazon a small group of explorers were tasked to go on a journey to get a jewel as expensive as a country itself. As they entered the temple they were hit with a deep feeling of worry and were immediately unsettled as they could see blood dripping off the ceiling. There were spiders crawling all over the crumbling walls and there were two giant golden statues leaning over them as if they were watching the group of explorers.

In the main room they saw a giant statue in the middle of the room with a lever, scroll and some hieroglyphics which speaks of hidden treasure. One of them were reading the hieroglyphics.

“What's that over there?” said one of the explorers.

“It looks like a hieroglyphic,” said another one of the explorers.

The hieroglyphics said, “Do not disturb the hidden oracle.” As the explorers went to the lever, they realized that the lever was too hard for one to push so they got two people to do it and finally they opened the door.

As the door slowly and creepily opened the explorers saw a giant diamond shining as bright as the sun which got their attention. They went through the long hallway and as soon as one of the explorers touched the diamond suddenly two venomous snakes burst out of the wall. The deadly snakes killed 3 of the 5 explorers. As the 3

explorers were laying on the hard stone floor the other 2 explorers were able to escape without a single scratch on them.

***You have included:***

- ***Paragraphs***
- ***An exciting opening to hook the reader***
- ***Interesting and descriptive vocabulary to describe setting***
- ***Interesting and descriptive vocabulary to create atmosphere***
- ***Similes***
- ***A plot structure (beginning, build up, problem, resolution and ending)***
- ***Speech marks to show dialogue***
- ***Sentences that start in different ways***
- ***Accurate punctuation***

***Next time:***

- ***We will look at more challenging connectives***

***This is the best piece of writing you've written Stuart!  
Keep up this standard.***
