LI- To solve money problems.
Item	Price
Burger	£2.50
Pizza	£4.00
Fruit Salad	£1.00
Orange Juice	£0.50
Tea	£0.75
Hotdog	£1.50
Chips	£2.00
Cola	£0.70
Milk shake	£1.00
Look at the menu above and work out the problems. Can you master the challenge.

1) Miss Kurt needs to buy enough Fruit Salads for everyone in 5D (29 children). How much will this cost? If she pays with £30.00, how much change will she receive?

2) If you have a £10 note and buy three milkshakes, how much change will you receive?

3) If you buy a hotdog, a cola and a fruit salad, how much change will you receive from £10?

4) If I buy five Colas with a £5 note, how much change will there be?

5) If ten friends buy cheeseburgers with £30, how much change will they receive? Do they have enough left so that each of them can buy a drink? (show how you worked this out).

Challenge!

What is the largest number of cups of tea you can buy with £5? How much change will there be?

How many friends can have a hotdog and chips each with a £20 note? Will there be any change? (show how you worked this out).
