

VACANCY – ENGINEERING APPRENTICESHIP

The Company

ETC Ltd was set up 1999 and are based in Kilmarnock, we are family run business and this is a great opportunity for an apprentice to gain excellent experience in a successful growing dynamic business.

We have a well-equipped fabrication / welding workshop at our facility where we design manufacture and install specialised equipment for the nuclear, petrochemical and engineering industries.

Apprenticeship Summary

As an Engineering Apprentice you will shadow skilled tradesmen with a variety of tasks throughout the workshop to learn all aspects of the job role. You will be working as part of a small team but will need to show maturity within the role.

Weekly wage	-	as per our set apprentice rates
Working week	-	Mon-Friday 8:30am – 4:30pm with half an hour lunch Total hours per week: 37.50
Possible start date	-	To be confirmed
Apprenticeship level	-	Advanced Modern Apprenticeship

You will have support within the company and will be working towards a Fabricator / Welder Apprenticeship. You will also be required to attend Kilmarnock College 1 day a week for the first year if your four year apprenticeship to complete your formal qualifications.

Some of your duties will include;

- Operating both manual and CNC Machinery
- Monitoring materials coming in and deciding which to use
- Wearing correct PPE
- Working from Autocad drawings and liaising with our in house design manager
- Adhering to health and safety procedures and safe working systems
- Producing quality products
- General workshop duties including keeping your workspace clean & tidy
