Shape Landmark Homework Task

Date issued : Monday 8th March 2021

Date due : **Friday 19th March 2021**

Scotland is full of many different, famous landmarks and sculptures such as Edinburgh Castle, Stirling Castle, The Forth Road Bridge and so many more.

For homework over the next 2 weeks you should construct your own representation of a Scottish landmark or sculpture out of both 2D and 3D shapes.

Your shapes should be a mix of household items that you have collected such as toilet roll cylinders, cereal boxes, egg cups, plastic bottles etc. Your landmark or sculpture does not have to be the exact representation of the 'real thing', it can be more of your ideas.

Your landmark or sculpture must :

- Be a mix of both 2D and 3D shapes
- Be recycled household items
- Be decorated in any way you wish
- Be labelled with your name and also the name of the landmark

When completed, you can bring your Scottish landmark or sculpture into school where it will be quarantined for 72 hours before showing them off to the class.

Any questions you have about this, task you can ask me in class or send an email to eaamy.black@glow.sch.uk

I can't wait to see them all, they will be amazing 😊
