

## Higher RMPS

Embarking on Higher RMPS is an exciting journey that dives deep into some of the world's most important questions and beliefs. Throughout the course, you will explore three engaging units:

### Unit 1: World Religion – Judaism

Discover the rich traditions, beliefs, and practices of Judaism. This unit will help you understand the significance of Jewish culture and its impact on the world.

### Unit 2: Morality and Belief – Justice

In this unit, you will examine concepts of justice and morality. What does it mean to be just? How do our beliefs shape our understanding of right and wrong?

### Unit 3: Religious and Philosophical Questions – Origins

Engage with profound questions about existence and origins. Explore various religious and philosophical perspectives that have shaped human thought throughout history.

### Skills Developed:

Studying Higher RMPS will enhance your critical thinking and analytical skills as you engage with complex texts and diverse perspectives. You will learn to construct well-reasoned arguments, communicate your ideas clearly, and develop empathy by understanding different worldviews. These skills are not only valuable in RMPS but are also transferable to many other subjects and real-life situations.

### Future Pathways and Career Progression:

Higher RMPS opens doors to a variety of future pathways. Whether you are considering a career in education, social work, law, community development, journalism, or any field that values critical thinking and cultural awareness, the skills you develop in RMPS will be invaluable. Additionally, understanding diverse beliefs and ethical principles is essential in today's global society.

### Assessment Overview:

Your understanding and skills will be assessed through a combination of coursework and a final exam. This includes a written assignment (worth 30 marks), where you will demonstrate your ability to analyse and evaluate key concepts, as well as an end-of-year exam that tests your knowledge across the units (worth 8- marks).
