

Technologies

Digital Technologies

In this group, you will use switches, sensory equipment and DT equipment to communicate, make music and even bake cakes!

Photography

This module will provide you with the chance to use digital devices to capture photographs and use software to edit them.

Eco

This module is all about reducing, reusing and recycling. You will create junk art, save energy and recycle old materials.

Independent Living Skills

This unit will help you develop the basic skills required to use general household electrical appliances appropriately and safely.

Sports, Health and Leisure

Swimming

You will improve your performance, physical health and sense of wellbeing through swimming, water games, hydrotherapy and water aerobics.

Leisure Activities

The Leisure Activities module will help you to develop your team work and self-help skills. You will share take part in familiar and new indoor and outdoor activities.

Healthy Eating

This unit will help you to learn about the relationship between food, health and wellbeing, as well as making some healthy snacks.

Willowbank School

Module Choices
2018 – 2019

MODULE CHOICES WILL VARY PER YEAR

Literacy and Numeracy

Literacy

This class will be about reading, listening to and watching fictional texts, and responding to ideas through using symbols, art and conversation.

Numeracy

This module will help you to use basic number skills and work on your addition and subtraction skills through group work and games.

Life in Other Countries

This class will explore the community and Culture of other countries as well as developing an understanding of their languages.

Creative and Expressive Arts

Art

The Art module will give you The opportunity to use materials and equipment to create items, objects and images.

Drama

Mr Chris Hall from Ayrshire College will deliver this module, which will allow you to showcase your performance and teamwork skills.

Music

The music module will allow you to explore sound and rhythm and to use instruments and equipment to produce music.

Craft and Design

You will explore different tools and materials in order to complete design projects and craftwork items.

Outdoor and Community Learning

Duke of Edinburgh's Award

This challenging module will encourage you to volunteer, improve your physicality, work on a range of skills and take part in an overnight expedition.

John Muir Award

This group will focus on outdoor activities, and will *discover, explore, conserve and share* experiences.

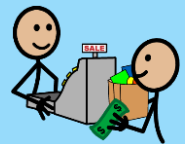

Green Tree Award

The Green Tree group is all about environmental projects and outdoor learning. You'll explore woodlands and parks.

Shopping

In this class, you will prepare for and take part in shopping experiences, including navigating stores and interacting with staff.

Signs in the Community

This module will help you to explore the school and local community, learning and using a range of signs, notices and logos.
