

# FILM COMPOSITION PLAN

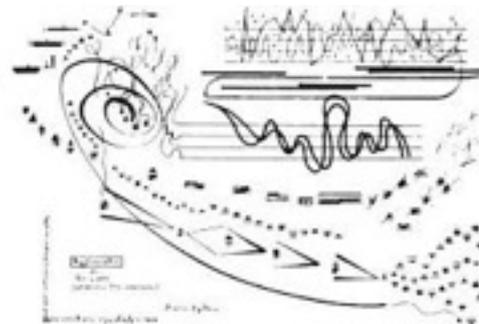

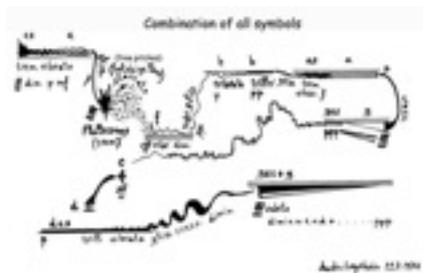

Please complete the following period 6 today and all tasks before Tuesday 15th November when the Pro Tools rota will begin

Name \_\_\_\_\_

1 Film Title Choice and time of excerpt  
(eg Planet earth 2 trailer 030 - 1.30 secs) \_\_\_\_\_

2 Sibelius Score of THEME - please email your theme score to Mrs Black today from your GLOW ACCOUNT [jblack@boclair.e-dunbarton.sch.uk](mailto:jblack@boclair.e-dunbarton.sch.uk)

3 On the back of this sheet, create a graphic score for your one minute film composition. Try to imagine what the end result might sound like, the mood of the music, the speed of the notes, and possibly whether they are high or low. Place your graphic ideas in some sort of sequence - this will help build layers and textures when using computer software to compose. For example your film clip may only start with a drone with the theme not starting for another 20 seconds.

4 Finally, make a note of the following instructions on how to download the film clip you want at home. Take a picture of this on your phone, or alternatively I will upload this document to the glow MUSIC DEPT Blog today, and once I receive your Sibelius file I will respond with a link to the glow page.

## DOWNLOADING YOUR FILM CLIP AT HOME

- 1 OPEN UP YOUR FILM CLIP IN YOUTUBE
- 2 IN A SEPARATE WINDOW OPEN UP CC CONVERTER
- 3 PASTE VIDEO URL INTO BOX, SELECT MP4 OR MOV FORMAT
- 4 UNTICK START / END OF VIDEO, AND SELECT CLIP TIME YOU WANT - DOWNLOAD

Please bring your downloaded film clip with you next week on a USB stick.  
You must leave this planning sheet for me today, please hand back to Mrs Dunford.
