

National 5 Graphic Communication Revision:

Assessment:

Question Paper:

The question paper is worth **65 marks**. You will have 1 hour and 30 mins to complete the paper and this is worth **62% of your overall grade**.

SQA Exam Date: 16th May 2022 (1—2.30pm)

Past papers and marking schemes can be found in the link below. The course specification outlines all the information you need to know for the exam paper.

Assignment:

This is worth **40 marks** which accounts for **38% of your grade**. You will have 8 hours to complete this task. This will be carried out during class time over a number of periods and will be sent away to the SQA for marking.

A specimen assignment is linked below. We will be working through this in class in preparation for the real thing.

Resources:

- Textbook
- Notes booklets
- Online Inventor tutorials (linked below)
- Technical Blog (linked below)
- Previous classwork and homework
- Supported study

You can also come to the Technical Department during lunch time if you need a bit of extra help.

Homework:

Homework tasks are set each Thursday for completion the following week. These are designed to help revise older topics as well as consolidate current learning. All tasks are available to view on **Show My Homework**.

Revision:

Past Papers: the most effective way to revise for the exam is to complete past paper questions. This will allow you to familiarise yourself with the wording of particular questions as well as the mark allocation for particular topics. Try timing yourself without distractions to see if you can do it within the time limit.

Retrieval Practice is an activity that means you must retrieve the information from your long-term memory. We will be using several retrieval practice techniques in class in the lead up to the prelim and final exam e.g. battleships, trivial pursuit and bingo.

You may also find techniques such as **mind maps, flashcards** and **brain dumps** helpful in your revision at home.

You can use the information in the **course specification** as a revision checklist for the prelim and the final exam.
