STEAM IN ST. LUKE'S

Big Bang event

A number of S3 pupils took part in the DYW West Big Bang event at Glasgow Clyde College. The Big Bang is the largest celebration of STEM for young people in the UK. It brings an outstanding opportunity to show young people just how many exciting and rewarding opportunities there are out there for them with the right experience and qualifications.

STEM Glasgow

St. Luke's were fortunate enough to take a group of S3, S4 and S5 pupils along to the Glasgow Science centre to take part in the Glasgow City Council STEM workshops. Pupils were involved in activities and workshops with employers, universities and STEM ambassadors.

Engineering the Future for Girls @ Strathclyde University

Engineering the Future for Girls, hosted by the Faculty of Engineering in the University of Strathclyde, is designed to engage girls in a wide range of engineering challenges that will inspire them to become the next generation of engineers. St. Luke's have a number of S3 pupils interested in this opportunity at Strathclyde University. We wish our applicants the best of luck in gaining a space on the programme.
