

Zickety Dickety Dock & Ally Bally Bee - Throwback Home Learning and Play Timetable

Our weekly timetable includes a story of the week, counting games and ideas for activities indoors and out. Children need lots of opportunities to play and be active outside. During lockdown it's difficult for families to balance home schooling, their own work and caring for babies or others. Whenever you can, the best thing for young children is to go outside to play, for as long as is possible – whether that's 20 minutes or 2 hours. Fresh air with physical exercise and play is essential for young children to develop the skills they need for learning. It's also brilliant for everyone's mental health too. There is a table of ideas for outdoor play below - you can do these in any order, at any time, or try to get 4 in a line across then up and down. Just get in amongst it and have fun together as many times as you can.
